National Director's Update

In late September, I had the good fortune to attend Region I's 2017 Fall Meeting held at the Oregon Health Science University School of Dentistry in Portland, OR. I would like to extend my personal thanks to Dr. Rose McPharlin who went to great lengths to ensure that the attendee's had an informative and enjoyable few days. I would also like to thank Dean Phillip Marucha for hosting the large contingent of CODE representatives, sponsors, and other guests at OHSU. With 100% participation from the fifteen regional schools, Dr. Oanh Le, our Region I Director, continues to impress everyone with her organizational skills and ability to effectively lead the discussion surrounding our National Agenda.

Although I was only able to attend one Regional Fall Meeting this year, our other Regional Directors, hosts, and host schools are equally deserving of special recognition and thanks:

- Region II Director, Dr. Christa Hopp and host, Dr. Melynda Meredith at the University of Missouri Kansas City School of Dentistry.
- Region III Director, Dr. Shalizeh Patel and host, Dr. Nick Miniotis at the LSU Health New Orleans School of Dentistry.
- Region IV Director, Dr. Michelle Kirkup and host, Dr. D. Stanley Sharples at the Ohio State University School of Dentistry.
- Region V Director and host, Dr. James Kaim at the University of New York College of Dentistry.
- Region VI Director, Dr. Mary Baechle and host, Dr. Alex Delgado at the University of Florida College of Dentistry.

As always, thanks must also go to Dr. William Johnson for his continued service as webmaster for the Consortium. Please continue to provide both he and I with any updates regarding your contact information.

With 76 North American Dental Schools (66 U.S. and 10 Canada), for 2017/18 we have 68 participating CODE member schools (60 U.S. and 8 Canada). While I am proud of the level of institutional participation, I would ask that if your school is listed as one of those not being a member (see the Schools and Regions section of the 2017 Annual National Report at www.unmc.edu/code), please help facilitate payment by following up with the individual who is responsible for sending in the annual dues. Contact me directly at gary.stafford@marquette.edu with any questions you might have.

Dr. Taiseer Sulaiman has agreed to provide a presentation on *Light Curing and Its Importance in Pre-clinical Education* at the 2018 CODE Annual National Meeting that will be held at 5:10 pm in the Parkside Room of the Drake Hotel in Chicago, IL on Thursday, February 22nd, 2018. Dr. Sulaiman is the Director of Biomaterials and Biomimetics at the University of North Carolina School of Dentistry and will be representing Region VI. The Academy of Operative

Dentistry continues to graciously provide support for this annual event so I would hope that many of you would be able to join us during the AOD's Annual Meeting. I will look forward to seeing you there. Until then, you have...

All my best,

A handwritten signature in blue ink, appearing to read 'G. Stafford'.

Gary L. Stafford DMD

National Director – Consortium of Operative Dentistry Educators (CODE)

Origins of CODE

Project ACORDE (A Consortium of Restorative Dentistry Education)

The date usually cited as the starting point for the development of Project ACORDE is 1966. That year, in Miami, the Operative Dentistry Section of AADS formed a committee charged to plan for the cooperative development of teaching dental materials.

In July of 1971, the Dental Health Center, San Francisco, invited faculty from 14 dental schools to explore the feasibility of reaching consensus of a series of operative dental procedures. The outcome of the meeting suggested that it was feasible to achieve broad-based agreement on basic procedures: task analyses could be developed in which consensus could be reached on essential details of methods and instrumentation. The Project ACORDE committee was charged with the responsibility for coordinating curriculum development efforts on a national level in November of that year. Prominent in this project development were Bill Ferguson, David Grainger and Bob Wolcott.

The Broad Goals and Functions of this committee were:

1. To gain agreement among all participating dental schools on the teaching of operative dentistry functions and gain acceptance by all schools.
2. To produce materials which can be universally accepted and utilized for teaching dental students and expanded function auxiliaries.

During 1974, a 15-module package entitled Restoration of Cavities with Amalgam and Tooth-colored Materials was presented. The preparation package entitled Cavity Preparations for Amalgam and Tooth-colored Materials became available for distribution in March of 1976.

Project ACORDE was found to have produced three major benefits for dental education:

1. It opened new channels of communication among dental educators.
2. It suggested uniform standards of quality for the performance of restorative skills.
3. It produced numerous lesson materials that were useful both for teaching students and as models of developers of other lessons.

The benefit, most frequently cited by dental school faculty, was communication. The primary example of the communication begun by Project ACORDE, which has lasted well beyond the initial project, is CODE (Consortium of Operative Dentistry Educators). CODE has as its goal, the continuation of meetings for the purpose of information exchange among teachers of operative dentistry. Regional CODE meetings are held

annually with minutes of each session recorded and sent to the national director for distribution. This system is a direct spin-off of Project ACORDE.

The first annual session of CODE was held in 1974/75.

The Early Years (1974-1977)

As founding father of the concept, Robert B. Wolcott of UCLA assumed the role of national coordinator and appointed Frank J. Miranda of the University of Oklahoma as national secretary. A common agenda to be provided to all six regions was established at this time. The first regional meetings were held in the winter of 1974. During the first three years of operation, each region devised a system of rotation so that a different school hosted the regional meeting each year, thus providing a greater degree of motivation and bringing schools closer together in a spirit of fellowship and unity. Each region submitted suggestions for future agendas, thereby insuring a continued discussion of interesting and relevant topics. A collection of tests or a test bank was started in early 1976. This bank consisted of submitted written examination questions on specified topics that were compiled and redistributed to all schools.

The Transition Years (1977-1980)

The first indication that the future of CODE was in jeopardy came in 1977, the first year that a national report could not be compiled and distributed. As the result of the efforts of a committee chaired by Dr. Wolcott, the original concept was renewed in 1980. Its leadership had been transformed from the structure of a national coordinator and secretary to a standing subcommittee under the auspices and direction of the Section of Operative Dentistry of the AADS.

The Reaffirmation Years (1997 - 1998)

During the 1997 meetings of both the Operative Dentistry Section Executive Council and the Business meeting of the Section, interest was expressed about reorganizing CODE and aligning it more closely with the Section. During the following year, fact-finding and discussions occurred to formulate a reorganization plan.

The plan was submitted for public comment at the 1998 meeting of the Operative Dentistry Section Executive Council and the Business meeting of the Section. At the conclusion of the Business meeting the reorganization plan was approved and implemented.

Reaffirmation of CODE official title (2003)

CODE changed its name from *Conference of Operative Dentistry Educators* to *Consortium of Operative Dentistry Educators* due to a ratification vote at the Fall 2003 Regional CODE meetings.

Establishment of Board of Directors and Articles of Incorporation

In 2013, Dr. Larry Haisch stepped down as National Director. The organization flourished under Larry's outstanding leadership and 15-year tenure as National Director. Bank accounts needed to be transferred to the new National Director's locale and name. In a post 9-11 society, banks accounts are not as easy to establish for non-profit organizations as they once were. The organization was compelled to establish a Board of Directors and write Articles of Incorporation in order to conduct regular organizational business. The Board of Directors consists of all Regional Directors as well as the At-Large Directors.

The Future of CODE

The official sponsorship by the Section of Operative Dentistry of ADEA (formerly ADDS) and the revised administrative structure of CODE are both designed to insure its continuance as a viable group. The original concepts, ideas and hopes for CODE remain unchanged and undiminished. Its philosophy continues to be based on the concept of dental educators talking with each other, working together, cooperating and standardizing, when applicable, their teaching efforts and generally socializing in ways to foster communication. There is every reason to believe that organizations such as CODE, and those developed in other fields of dentistry, will continue to crumble the barriers of provincialism and provide the profession with a fellowship that is truly national in scope.

*This section was written and edited by Larry D. Haisch, DDS
CODE National Director 1998 – 2012*

Past and Current National Directors (Coordinators)

1974 - 1982	Robert B. Walcott DDS	University of California Los Angeles
1982 - 1986	Thomas A. Garmen DDS MS	University of Georgia
1986 - 1989	Frank J. Miranda DDS	University of Oklahoma
1989 - 1998	Marc A. Gale DMD M Ed	University of Florida
1998 - 2012	Larry D. Haisch DDS	University of Nebraska
2013 - 2015	Edward J. DeSchepper MA Ed DDS MSD	University of Tennessee
2016 - Present	Gary L. Stafford DMD	Marquette University

Organizational Operation

The Section on Operative Dentistry and Biomaterials of the American Dental Education Association (ADEA) has “oversight” responsibility for sustaining and managing the activities of CODE.

- The Executive Council of the Operative and Biomaterials Section will appoint the National Director of CODE for a three-year renewable term.
- The National Director will be selected from a list of one or more individuals nominated for the position by the CODE Advisory Committee after input from the regions.
- The National Director will perform the functions and duties as set forth by the Council.
- The National Director will be a joint member on the Council and will be expected to attend a regional CODE meeting and the annual meeting of the Council and Section. The National Director may also serve as an elected officer of the Council.

A CODE Advisory Committee (and now also Board of Directors) will assist the National Director with his/her duties.

- A CODE Advisory Committee will consist of the Regional Directors from each of the six regions, the National Director and three at-large members.
- Each region will select their Regional Director. The National Director and/or the Executive Council may select the at-large member(s).
- The terms are three years, renewable, not to exceed two consecutive terms.
- The National Director serves as Chair of the Advisory Committee.

The annual CODE Regional meetings will serve as the interim meeting of the section. Some section business may be conducted at each CODE Regional meeting as part of the National agenda.

Regional Directors:

- Will be a member of ADEA and the section of Operative Dentistry
- Will oversee the conduct and operation of CODE in their respective region while working in concert with the national director
- Will have communication media capabilities including e-mail with the capability of transmitting attachments

- Will attend the region's meeting
- Ensure that meeting dates, host person and school are identified for the following year
- Do follow-up assist on dues "nonpayment" by schools
- Ensure that reports of regional meetings are submitted **within 30 days** of meeting conclusion to the National Director
- Ensure that individual school rosters (operative based) are current for the region
- Identify a contact person at each school
- Assist in determining the national agenda
- Other, as required

Regional Meeting Reporting/National Meeting Information

The 2017 National Agenda was established after a review of the suggestions contained in the reports of the 2016 Fall Regional meetings, National CODE Meeting and from the Regional CODE Directors. Previous National agendas were reviewed to avoid topic duplication. Inclusion of a previous topic may occur for discussion from the aspect as to what has changed and the response/action taken and/or the outcome.

Thank you to the Regional CODE Directors and the membership for making recommendations to establish the National Agenda. Each Region is encouraged to also have a Regional Agenda.

Each school attending a Regional Meeting is requested to bring their responses to the National Agenda in written form AND electronic media. This information is vital to timely publication of the National Annual Report.

Continue to invite your colleagues, Dental Licensure Board examiners, and your Military and Public Health Service colleagues who head/instruct dental education programs to your Regional meetings. The strength of the organization lies in its membership.

Each Region should select next year's meeting site and date/tentative date during your Fall Regional CODE meeting so this information may be published in the Annual National Report and on the CODE website.

The Regional meeting reports are to be submitted to the National Director **in publishable format** as an email attachment.

The required format and sequence will be:

- 1. CODE Regional Meeting Report Form***
- 2. CODE Regional Attendees form***
- 3. Summary of responses to the National Agenda**
- 4. Individual school responses to the National Agenda**
- 5. The Regional Agenda summary and responses**

*(copies may be obtained from the CODE website: www.unmc.edu/code or within this document)

Send an electronic copy of the final regional report via an email attachment to the National Director (gary.stafford@mu.edu) within thirty (30) days of the meetings conclusion.

National CODE Meeting:

The meeting will be held Thursday, February 22nd, 2018 from 5:10 – 6:30 pm in the Parkside Room at the Drake Hotel, 140 East Walton Place, in Chicago, IL.

2018 ADEA Section on Operative Dentistry and Biomaterials Meeting:

The meeting will be held on Monday, March 19th at 7:00 am during the ADEA Annual Session & Exhibition, March 17-20, 2018 in Orlando, FL.

National Directory of Operative Dentistry Educators:

The CODE National Director maintains the National Directory of Operative Dentistry Educators as a resource for other dental professionals. It is critically important that this information be as current as possible.

You may update your university's directory listing on the CODE website at www.unmc.edu/code or by sending an email directly to the National Director at gary.stafford@mu.edu.

In an effort to keep the National Directory up to date, please have each school in your Region update the following information:

1. *School name and complete mailing address*
2. *Individual names: (F/T Faculty), phone number and email address of F/T Faculty who teaches operative dentistry.*
 - a. This could be individual's who teach in a comprehensive care program, etc... if there is no defined operative section of the department.

Your help and cooperation in accomplishing the above tasks helps save time and effort in maintaining a complete National Directory and publishing the Annual National Report in a timely fashion.

All my best,

Gary L. Stafford DMD

2017 National Agenda

I. Clinical Curriculum

- a. In your school, do students practice on one another in preparation for their clinical experiences? (Yes/No)
 - i. What types of procedures? – Examples include:
 1. Extra/intraoral examination (Yes/No)
 2. Periodontal probing (Yes/No)
 3. Alginate impressions (Yes/No)
 4. Photography (Yes/No)
 5. Radiographs (Yes/No)
 6. Local anesthetic (Yes/No)
 7. Prophylaxis (Yes/No)
 8. Retraction Cord Placement (Yes/No)
 9. Others – Please be specific
- b. Benchmarks for entering the pre-doctoral clinics
 - i. Is passing NBDE1 a requirement for entry into the pre-doctoral clinic? (Yes/No)
 - ii. Is passing NBDE2 a requirement for entry into the pre-doctoral clinic? (Yes/No)
 - iii. Will this policy change when INDBE is in place? (Yes/No)
 - iv. Is passing all pre-clinical operative, fixed, and removable courses a pre-requisite for entry into the pre-doctoral clinic?
 - v. What other pre-requisites, if any, are necessary prior to being allowed to treat patients in the pre-doctoral clinic?
- c. What is the student/faculty ratio in your school's pre-doctoral clinic?
 - i. Does case complexity play a role in determining this ratio?

II. Biological Aspects of Operative Dentistry

- a. Pulp capping and pulp tissue management
 - i. Material(s) used – Please be specific
 1. CaOH₂ (Yes/No)
 2. ZOE (Yes/No)
 3. RMGI (Yes/No)
 4. MTA (Yes/No)
 5. TheraCal LC (Bisco Dental) (Yes/No)
 6. Biodentine (Septodont) (Yes/No)
 7. Others (Yes/No)
 - ii. Technique(s) taught – Please be specific

III. Materials and Techniques

- a. Provisionals
 - i. Material(s) used – Please be specific
 - ii. Technique(s) taught
 1. Discuss various techniques

- a. Traditional
 - i. Describe
- b. CAD/CAM (Yes/No)
- c. 3D Printing (Yes/No)
- b. Direct Pin Placement
 - i. In your school, what is the current status of curriculum focus on the teaching of direct pin placement in vital teeth requiring extensive restoration, to augment resistance and retention for amalgam or adhesively bonded composite materials?
 - 1. The goal of this question is to achieve a consensus report on the validity (or not) of direct pin placement in contemporary restorative practice.
- c. Restoration Repair
 - i. Does your school permit repair of a defective amalgam margin with a composite resin or require a total restoration replacement?
 - ii. Does your school permit repair of a defective composite margin with a composite resin or require a total restoration replacement?
- d. Clinical Guidelines – Amalgam/Resin
 - i. Does your school have guidelines as to when amalgam vs composite resin restorations are placed?

IV. Assessment

- a. Clinic Productivity
 - i. Is the clinic productivity of your student a graded element in their clinical progress assessment?
 - ii. Do you believe that it should be?
 - iii. How do you assess their productivity?

V. Administration

- a. Attendance Policy
 - i. Describe the attendance policy for your school's students.
 - 1. Please quote the actual attendance policy as outlined in your Academic Affairs manual.
 - ii. Is the policy enforced?
 - iii. Do you feel that this policy is fair?
 - iv. Do you feel that the policy is appropriate?
- b. Millennial Students
 - i. Has your school offered any faculty development programs related to teaching/dealing with the new generation of students?
 - ii. Are any surveys taken, other than course/faculty student evaluations to determine the effectiveness of these interactions?
 - iii. Are there any special teaching techniques or styles that seem to work better with the new generation of students?
 - iv. Are students provided with any behavioral lectures to sensitize them to the nature of student/faculty interaction in the dental setting?
